# PROGRAM

## WHAT IS THE CORONER'S DUI PROGRAM?

The Coroner's DUI Program is a court-ordered class designed for adults who have been arrested for a DUI offense.

## WHAT IS THE PURPOSE?

This program is designed to deter criminal offenders by educating them about the finality of their actions should they choose to drive while impaired.

Through the review of tragic cases resulting in death, coroner DUI instructors will challenge each of the participants to examine their choices in life, in an effort to preserve their lives and the lives of others in the community.

## PROGRAM OUTLINE

- Orientation and purpose of the Clark County Office of the Coroner/Medical Examiner
- Review of case histories
- Tour of the coroner's office
- Class discussion
- Next of kin information

## HOW DOES THE CORONER'S DUI PROGRAM WORK?

Attendees will begin in the classroom. First, they will learn the responsibility of the Coroner/Medical Examiner's Office and review local case histories of those who have lost their lives due to a violent DUI incident. One by one, coroner DUI instructors will discuss the stories behind the face of each victim introduced to the group. Offenders will learn how our investigators perform a thorough death investigation, make the positive identification of a decedent, and notify next of kin.

After the classroom portion of the program, everyone will take an instructor-led tour of the office where they will experience sights, smells, and sounds common to the coroner's office. No one will see an autopsy. However, participants will be exposed to the reality of untimely or violent death, as well as the tragedy and loss resulting from reckless behavior.

Everyone will be required to fill out a Coroner's DUI Program card with their personal information, including their next of kin so investigators can notify their loved one in the event of the offender's death.
